Engineer Ridenour reminded Supervisors of the 6-county meeting next Wednesday at Lid's and other department up dates. Supervisor Keatley asked question about unions. Engineer Ridenour also commented on all-systems permits issued by the state for heavier loads – the county roads are not a part of this permit at this time. In the future it will have to be discussed if the county wants to include roads and which county roads to include. Conservation Director Ross Geerdes spoke about

the Enhancement Committee. Arlen Wonderlich presented a petition with 35 signatures regarding lowering the speed limit on Great River Road from Whalen Hill to the power plant, and stated the goal is to reduce the speed limit to 45mph in the area due to many hazards and inconsistency. Suggestion by Wonderlich to increase limit to just 45 mph after Whalen Hill to Alliant Energy property, then to 55 mph; gave the numbers for driveways and homes in this stretch of highway and # of mailboxes on the riv-

er side of the highway; stated the many concerns along this section of highway. Lynn Strong commented how scary it is to go to her mailbox due to the speed of traffic and she lives in a 25mph zone in city limits. Sheriff Mellick spoke about past speed checks in this area Ray Mullarkey spoke in opposition to lowering the speed limit. Supervisors Reiser and Keatlev have received calls in opposition to the reduction in speed limit. Engineer Ridenour commented that the DOT can do a speed study if he requests it and gave a history of the speed limits on Great River Road, but DOT will ask what has changed to prompt this request – more homes or other things. Ridenour read a comment from Doug Mullen that if a speed limit study is done, continue it to Lafayette Ridge due to the curves and driveways in that section. Wonderlich and Thran shared data from two different personal traffic counts they had done on two separate days. Engineer Ridenour shared information regarding 12 total crashes over 10-year period on this section of highway. 23.270-Motion Reiser/Second
