Corey Snitker presented information regarding COVID-19 - the original timeline of January 4, 2022 when employers with 100+ employees must require vaccination of employees, or mandatory weekly COVID-19 testing for those not vaccinated; these requirements are on hold due to pending litigation. If or when the testing is required of non-vaccinated employees, Corey Snitker, Em Mgmt Director, does not have COVID-19 test kits available. The pharmacies or Public Health are options to purchase kits. The Supervisors and Engineer Ridenour discussed existing requirements for exposed, non-vaccinated employees to quarantine for 7 days, and can return to work on the 8th day if they take a test on 5th day with a negative result. Vaccinated employees with exposure have no requirement to quarantine, unless symptoms are present. Free Test lowa kits are available from hospital or a local pharmacy, or can be requested online.
